

the duties on lemons, cocon and sub-
stitutes for coffee, coal tar, dyes,
gloves and coated papers and litho-
graphic prints.

As was expected, the new tariff bill
is made on a maximum and minimum
basis, with the provision that the max-
imum rates are not to go into effect
until sixty days after the passage of
the bill.

Reciprocity provisions are contained
in the paragraphs assessing duties on
bituminous coal and coke and agricul-
tural implements, by which these articles
are given entry free of duty when im-
ported from countries which permit the
free importation of these articles from
America.

The inheritance tax provision of the
bill is similar to the New York law. It
provides a tax of five per cent. on all
inheritances over \$500 that are collateral
inheritances or in which strangers are
the legatees. In cases of direct inheri-
tance the taxes prescribed are: \$100,000
to \$500,000, one per cent.; on \$500,000
to \$1,000,000, two per cent.; and on those
over \$1,000,000, three per cent. It is es-
timated that \$200,000 annually will be
derived from this tax.

The maximum and minimum provision
of the bill does away with the necessity
of continuing the foreign trade agree-
ments. The abrogation of these is pro-
vided for in a section which authorizes
the President to issue notices of the
termination of these agreements within
ten days after the bill goes into effect.

The French agreement would therefore
terminate immediately while the Ger-
man agreement would remain in force
for six months. The time that must in-
tervene before the expiration of the
other reciprocity agreements would be-
come effective range from three months
to one year.

Drawback Privileges.

A provision in the bill is designed to
meet the conditions resulting from the
patent laws of Great Britain, which
requires that patentees must manufac-
ture their articles within Great Britain.
This provision applies the same rules to
patents taken out in this country by
aliens as applies to Americans in the
country of the aliens. Drawback privi-
leges are extended by the bill and the
method of valuation on articles upon
which the tariff imposes an ad valorem
duty is broadened for the purpose of
preventing the practice of undervaluation.

In introducing the bill Mr. Payne
gave out this statement:

"The last normal year of imports was
the fiscal year ending June 30, 1906.
The committee have therefore taken the
year 1906 as the basis to form their
estimate of the revenue producing qual-
ity of the new bill. Should the next
fiscal year prove prosperous and the
normal conditions of 1906 return, on ac-
count of the large increase in popula-
tion, the revenues for 1910 would show
a considerable increase over the esti-
mates of the committee.

Deficit.

"With a return to anything like nor-
mal conditions during the next fiscal
year, it is safe to predict that the
deficit would be entirely wiped out; but
in case it is not, the bill provides for
the issue of Panama Canal bonds to
reimburse the Treasury for the \$100,000,
to be paid out in the original purchase
of the canal. This would more than make
up any probable deficiency. There is
also re-enacted the provision for the
issue of certificates to run one year to
replenish the Treasury, raising the
amount from \$100,000,000 to \$250,000,000,
an amount sufficient to provide at any
time against two or three years of de-
pressed business conditions."

Generally speaking, most of those
articles in which the present duties
have been increased are luxuries.
Among these increases are the follow-
ing:

Perfumes and toilet articles, from
30 to 60 per cent. ad valorem; fancy
scent, from 15 to 20 cents per pound;
cherry root, not dried, from one cent
to two and a half cents per pound;
roasted, from two and one-half cents
to five cents per pound.

Cocoa, crude, transferred from the
free list to the dutiable, at four cents
per pound; prepared or manufactured,
increased two cents on each classification,
except that valued above 35 cents
per pound, which remains the same.
Ten per cent. ad valorem is added to
the duties assessed on that valued be-
tween 15 and 35 cents per pound. Pow-
dered cocoa, from five cents to nine
cents per pound.

creased those weighing over three

This increase is expected to provide
one of the main items of revenue.
